With the French Armies in the Field, June 10.—The present drive on the Montdidler-Noyon front, according to military critics, constitutes the northern arm of a vast encircling product aimed against Paris.
This movement, starting from the Avre, in the region of Montdidler and Avre, in the region of Montdidier and being pushed southward as far as possible towards the capital, would coordinate with a southern enveloping attack from Chateau-Thierry, thus seeking to envelop the American and French troops between Montdidier and Chateau-Thierry.

This operation, which takes some hours, exposes the men to an unpleasant artillery fire unless the element of surprise is preserved. The German attacking troops coming out to envelop the heights of Hocages and Riquebourg, dominating the Matz valley, offered a splendid target to the French gunners. The enemy had to throw in division after devision before he was able to drive devision before he was able to drive his way forward to Ressons-Sur-Matz and Marcuil along the Roye road, which was swept by French fire. Criminal complaints against six men, one of whom has a wife and family, had been issued today from

All the defendants have been arrested. They live in the vicinity of Richland, which is also the girl's home, and the most of them are prominent in the community. Hupp and Huyett will be given a preliminary hearing in the court of Topeka before Judge Lee tomorrow. They are at liberty on bond.
